# Your Social Security Statement

## Retirement Benefits

You have earned enough credits to qualify for retirement benefits. To qualify for benefits, you earn credits through your work - up to four each year.

Your full retirement age is **66 and 8 months**, based on your date of birth: October 2, 1958. As shown in the chart, you can start your benefits at any time between **your current age** and **70**. **For each month you wait to start your benefits, your monthly benefit will be higher—for the rest of your life.**

These personalized estimates are based on your earnings to date and assume you continue to earn $0 per year until you start your benefits. Learn more at *ssa.gov/benefits/retirement/learn.html* .

## Disability Benefits

To get benefits if you become disabled right now, you need 40 credits of work, and 20 of these credits had to be earned in the last 10 years. Your record shows you do not have enough credits at this time to receive disability benefits. Learn more at *ssa.gov/disability*.

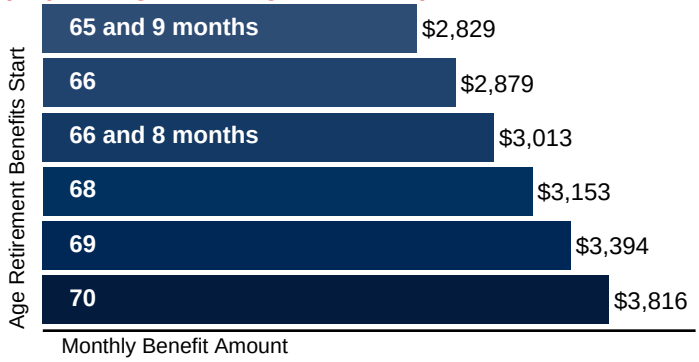

## Survivors Benefits

You have earned enough credits for your eligible family members to receive survivors benefits. If you die this year, members of your family who may qualify for monthly benefits include:

| | |
|---|---|
| Minor child: | **$2,259** |
| Spouse, if caring for a disabled child or child younger than age 16: | **$2,259** |
| Spouse, if benefits start at full retirement age: | **$3,013** |
| Total family benefits cannot be more than: | **$5,273** |

Your spouse or minor child may be eligible for an additional one-time death benefit of **$255**. Learn more at *ssa.gov/survivors*.

## Personalized Monthly Retirement Benefit Estimates (Depending on the Age You Start)

## Medicare

You already are receiving Medicare benefits. We used your past and current earnings to provide benefit estimates shown on this page.

**We base benefit estimates on current law, which Congress has revised before and may revise again to address needed changes. Learn more about Social Security's future at *ssa.gov/ThereForMe*.**

## Earnings Record

Review your earnings history below to ensure it is accurate because we base your future benefits on our record of your earnings. There's a limit to the amount of earnings you pay Social Security taxes on each year. Earnings above the limit do not appear on your earnings record. We have combined your earlier years of earnings below, but you can view your complete earnings record online with *my* Social Security. **If you find an error**, view your full earnings record online and call **1-800-772-1213**.

| Work Year | Earnings Taxed for Social Security | Earnings Taxed for Medicare (began 1966) |
|---|---|---|
| 1966-1980 | $7,225 | $7,225 |
| 1981-1990 | $164,984 | $164,984 |
| 1991-2000 | $482,235 | $482,235 |
| 2001-2005 | $328,953 | $328,953 |
| 2006 | $74,574 | $74,574 |
| 2007 | $76,902 | $76,902 |
| 2008 | $85,134 | $85,134 |
| 2009 | $88,964 | $88,964 |
| 2010 | $91,714 | $91,714 |
| 2011 | $106,508 | $106,508 |
| 2012 | $54,924 | $54,924 |
| 2013 | $0 | $0 |
| 2014 | $1,785 | $1,785 |
| 2015 | $0 | $0 |
| 2016 | $0 | $0 |
| 2017 | $0 | $0 |
| 2018 | $0 | $0 |
| 2019 | $0 | $0 |
| 2020 | $0 | $0 |
| 2021 | $0 | $0 |
| 2022 | $0 | $0 |
| 2023 | Not yet recorded | Not yet recorded |

## Taxes Paid

Total estimated Social Security and Medicare taxes paid over your working career based on your Earnings Record:

**Social Security taxes**
You paid: $93,249
Employer(s): $96,257

**Medicare taxes**
You paid: $22,605
Employer(s): $22,554

## Earnings Not Covered by Social Security

You may also have earnings from work not covered by Social Security, where you did not pay Social Security taxes. This work might have been for federal, state, or local government or in a foreign country. If you participate in a retirement plan or receive a pension based on work for which you did not pay Social Security tax, it could lower your benefits. Learn more at *ssa.gov/gpo-wep* .

## Important Things to Know about Your Social Security Benefits

- Social Security benefits are not intended to be your only source of retirement income. You may need other savings, investments, pensions, or retirement accounts to make sure you have enough money when you retire.
- You need at least 10 years of work (40 credits) to qualify for retirement benefits. The amount of your benefit is based on your highest 35 years of earnings. If you have fewer than 35 years of earnings, years without work count as 0 and may reduce your benefit amount.
- To keep up with inflation, benefits are adjusted through "cost of living adjustments."
- If you get retirement or disability benefits, your spouse and children may qualify for benefits.
- When you apply for either retirement or spousal benefits, you may be required to apply for both benefits at the same time.
- The age you claim benefits will affect your surviving spouse's benefit amount. For example, claiming benefits after your full retirement age may increase the *Spouse, if benefits start at full retirement age* amount on page 1; claiming early may reduce it.
- If you and your spouse both work, use the *my* Social Security Retirement Calculator to estimate spousal benefits.
- If you are divorced and were married for 10 years, you may be able to claim benefits on your ex-spouse's record. If your ex-spouse receives benefits on your record, that does not affect your or your current spouse's benefit amounts.
- Learn more about benefits for you and your family at *ssa.gov/benefits/retirement/planner/applying7.html* .
- When you are ready to apply, visit *ssa.gov/benefits/retirement/apply.html* .
- The *Statement* is updated annually. It is available online, or by mail upon request.

# Retirement Ready

## *Fact Sheet For Workers Ages 61-69*

ssa.gov

## Retirement is different for everyone

Because retirement is not one-size-fits-all, we want to provide you with the information you need to plan for retirement and to make informed decisions.

## You have choices to make

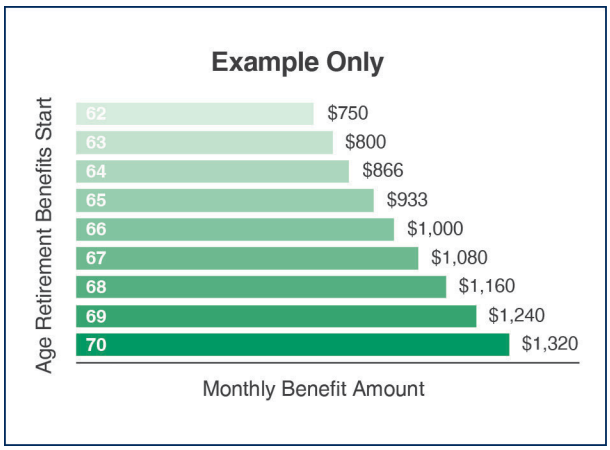

Some of these decisions may involve your Social Security retirement benefits. You can continue to work, apply for benefits, do both, or do neither. Each choice comes with important considerations for you and your family. Learn about them at ***ssa.gov/benefits/retirement/matrix.html***.

## Your "full" retirement age

Depending on when you were born, your full retirement age could be from 66 to 67. Find your exact full retirement age at ***ssa.gov/planners/retire/retirechart.html***.

## When you start affects how much you get

Everyone's decision about when to start receiving benefits is different. Say that your monthly benefit at a full retirement age of 66 is $1,000. Starting retirement benefits early at 62 or late at 70 can mean the difference between $750 and $1,320 a month. The graph on this page gives you an example. Your *Social Security Statement* provides your personalized retirement benefit estimates.

## Earnings are essential

Your earnings are used to determine your eligibility for Social Security benefits and your benefit amount. Use your *Social Security Statement* to check your earnings each year. If you see an error on your earnings record, report it to us. Learn how at ***ssa.gov/pubs/EN-05-10081.pdf***.

## Benefits last as long as you live

Your benefits last as long as you live. Taking benefits before your full retirement age (as early as age 62) lowers the amount you get each month. Delaying benefits past full retirement age (up to age 70) increases the monthly amount for the rest of your life. Our Life Expectancy Calculator can provide a rough estimate of how long you might live based on your age and gender: ***ssa.gov/planners/lifeexpectancy.html***.

## Benefits are protected from inflation

Your benefit will be adjusted to keep up with inflation. Learn about these cost-of-living adjustments (COLAs) at ***ssa.gov/cola***.

## Some benefits are taxed

You may have to pay federal income taxes on a portion of your Social Security benefits if you have other substantial income in addition to your benefits (such as wages, self-employment, interest, dividends, and other taxable income that must be reported on your tax return). You may choose to have federal income taxes withheld from your Social Security benefit. Learn more at ***ssa.gov/planners/taxes.html***.

## Working while getting benefits

If you get retirement benefits but want to continue to work, you can. However, depending on how much you earn before full retirement age, we might temporarily withhold all or some of your benefit amount. When you reach full retirement age, we will recalculate your benefit amount to give you credit for the months we reduced or withheld benefits due to your excess earnings. Any earnings after you reach your full retirement age won't reduce your benefits. Learn more at ***ssa.gov/pubs/EN-05-10069.pdf***.

## Work may boost your benefits

Your earnings can increase your monthly benefit amount — even after you start receiving benefits. Each year, we check your earnings record if you continue to work. If your latest year of earnings turns out to be one of your highest 35 years, we will automatically recalculate your benefit amount and pay you any increase due. You can get additional estimates based on what you think your future earnings will be with the *my* Social Security Retirement Calculator at ***myaccount.ssa.gov***.

## Avoid a Medicare penalty

Even if you delay retirement benefits, be sure to sign up for Medicare three months before you turn 65 to avoid the lifelong penalty. Special rules apply if you are covered by a health plan at work. Find out about Medicare, including the different parts of Medicare, the coverage options, how to apply, and how to avoid a lifelong penalty at ***ssa.gov/pubs/EN-05-10043.pdf***.

## Unable to work due to a mental or physical disability

You may be able to receive Social Security disability benefits if you are unable to work at a certain earnings level due to a mental or physical disability, have not reached full retirement age, and if you meet certain eligibility requirements. Learn more about disability benefits at ***ssa.gov/disability***. The Supplemental Security Income (SSI) program pays benefits to adults and children with disabilities who have limited income and resources. Learn more about SSI at ***ssa.gov/benefits/ssi/*** .

## Benefits for family members

Your family, including your spouse, former spouses, and dependent children, may qualify for benefits on your record. Find out more about benefits for your family at ***ssa.gov/benefits/retirement/planner/applying7.html***.

Your family may also be eligible for survivors benefits. If you are the higher earning spouse, your decision on when to claim benefits can affect the benefits of your surviving spouse. Find out more about survivors benefits at ***ssa.gov/planners/survivors***.

## Benefits as a spouse

If you are married, divorced, or widowed, you may be eligible for higher benefits on your spouse's record. When you apply for either retirement or spousal benefits, you may be required to apply for both benefits at the same time. Learn more at ***ssa.gov/pubs/EN-05-10035.pdf***.

## Impact of other retirement plans

Most pensions or other retirement plans do not affect your Social Security benefits. But if you participate in a retirement plan or receive a pension based on work for which you did not pay Social Security tax, it could lower your benefits. This work may have been for federal, state, or local government or in a foreign country. Learn more at ***ssa.gov/gpo-wep***.

## Understanding your retirement benefits

Social Security is not meant to be your only source of income in retirement. On average, Social Security will replace about 40% of your annual pre-retirement earnings, although this can vary based on each person's circumstances. Learn more at ***ssa.gov/planners/retire***.

## We are here for you

Social Security covers about 96% of American workers. To learn more about Social Security, visit ***ssa.gov***.

# Additional Work Can Increase Your Future Benefits

ssa.gov

## More years of work may increase your future retirement benefits

Although you need at least 10 years of work, or 40 credits, to qualify for Social Security retirement benefits, we base the amount of your benefit on your highest 35 years of earnings. If you do not have 35 years of earnings by the time you apply for benefits, your benefit amount will be lower than it would be if you worked 35 years. Years with no earnings count as zeroes in the benefit calculation.

You have several years with no earnings on your work record. Additional work will increase your retirement benefits. Each year you work will replace a zero or low earnings year in your Social Security benefit calculation, which could help to increase your benefit amount.

## How we calculate retirement benefits

Social Security bases your retirement benefits on your lifetime earnings. We adjust or "index" your actual earnings to account for changes in average wages since the year the earnings were received. Then we calculate your average indexed monthly earnings from your highest 35 years of earnings. We apply a formula to these earnings to determine the benefit amount you would receive at your full retirement age. Your full retirement age is between 66 and 67, depending on the year you were born. This is the age you can get your full retirement benefit amount. There are factors that can change this amount. Your monthly benefit will be lower if you start them before your full retirement age (as early as age 62) or higher if you start them after your full retirement age (up to age 70). You can see your personalized monthly retirement benefit estimates at different start ages and your full retirement age on your *Social Security Statement*. Learn more at ***ssa.gov/pubs/EN-05-10070.pdf*** .

## Check your earnings record

Review your earnings in your *Statement*. Compare these earnings with your own records to make sure our information is correct and that we have recorded each year you worked. If you see an error, report it to us so you receive all the benefits you've earned. Learn how at ***ssa.gov/pubs/EN-05-10081.pdf***.

**EARNINGS RECORD**

| Work Year | Earnings Taxed for Social Security | Earnings Taxed for Medicare |
|---|---|---|
| 1990 | XXXX | XXXX |
| 2000 | XXXX | XXXX |
| 2005 | XXXX | XXXX |
| 2010 | XXXX | XXXX |
| 2015 | XXXX | XXXX |
